You will find the flag after analysing this apk

Download [here](#).

Pakai Jadx GUI untuk analisis android apk, sehingga ketika membuka aplikasi Jadx GUI nya, akan menampilkan seperti berikut :

```
<?xml version="1.0" encoding="utf-8"?>
<manifest xmlns="http://schemas.android.com/apk/res/android"
    android:versionName="1.0" android:versionCode="17496"
    android:compileSdkVersion="32"
    android:targetSdkVersion="32"
    android:label="@string/app_name"
    android:icon="@mipmap/ic_launcher"
    android:debuggable="true"
    android:allowBackup="true"
    android:supportRtl="true"
    android:fullBackupContent="@xml/backup_rules"
    android:roundIcon="@mipmap/ic_launcher_round"
    android:appComponentFactory="androidx.core.app.CoreComponentFactory"
    android:dataExtractionRules="@xml/data_extraction_rules">
    <application
        android:theme="@style/Theme.Timer"
        android:label="@string/app_name"
        android:icon="@mipmap/ic_launcher"
        android:debuggable="true"
        android:allowBackup="true"
        android:supportRtl="true"
        android:fullBackupContent="@xml/backup_rules"
        android:roundIcon="@mipmap/ic_launcher_round"
        android:appComponentFactory="androidx.core.app.CoreComponentFactory"
        android:dataExtractionRules="@xml/data_extraction_rules">
        <activity
            android:name=".MainActivity"
            android:exported="true">
            <intent-filter>
                <action android:name="android.intent.action.MAIN" />
                <category android:name="android.intent.category.LAUNCHER" />
            </intent-filter>
        <provider
            android:name="androidx.startup.InitializationProvider"
            android:exported="false"
            android:authorities="com.example.timer.android-startup">
            <meta-data
                android:name="androidx.emoji2.text.EmojiCompatInitializer"
                android:value="androidx.startup" />
            <meta-data
                android:name="androidx.lifecycle.ProcessLifecycleInitializer"
                android:value="androidx.startup" />
        </provider>
    </application>
</manifest>
```
